

Assignment -4

Assignment Date	10 October 2022
Student Name	Deepakchandhiran.S
Student Roll Number	814619104004
Maximum Marks	2 Marks

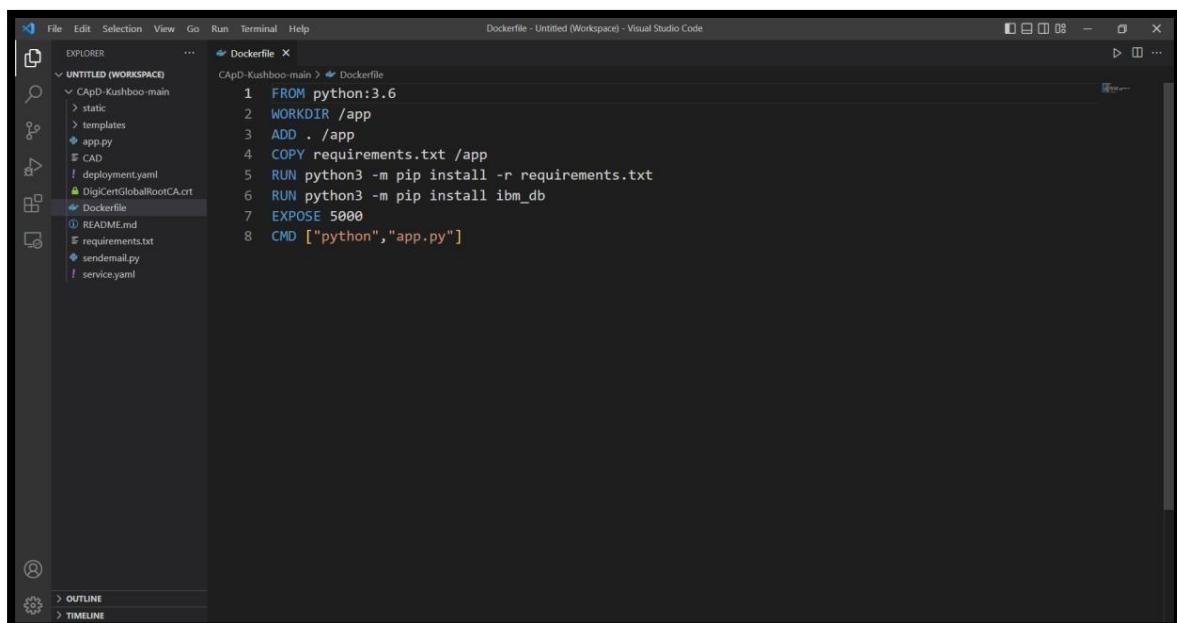

Question 1:

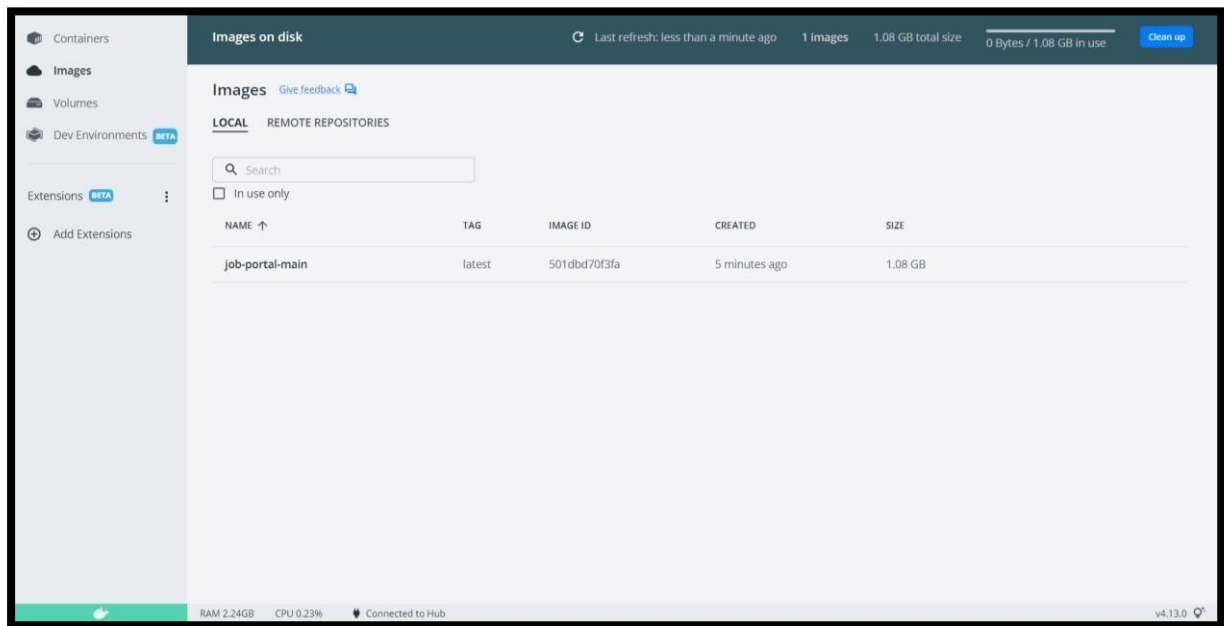

1. Pull an Image from docker hub and run it in docker playground

Question 2:

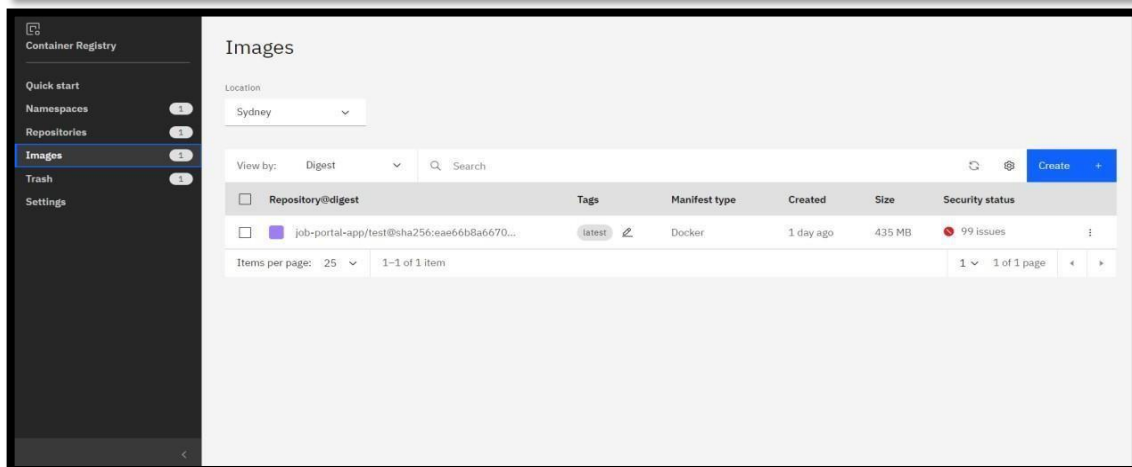

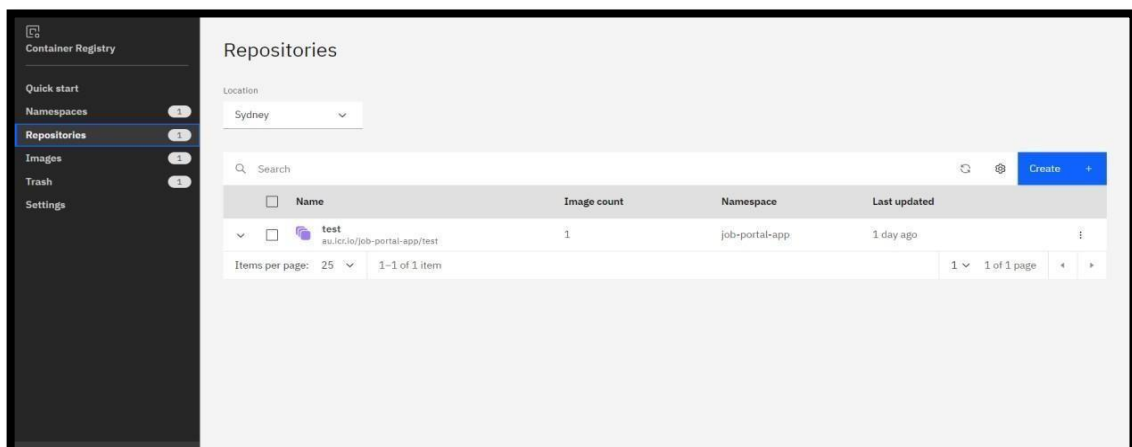

2. Create a docker file for the job portal application and deploy it in Docker desktop application.

Question 3:

3. Create a IBM container registry and deploy helloworld app or jobportalapp.

```
Command Prompt - docker run -p 5000:5000 au.icr.io/job-portal-app/test

C:\Users\user>docker push job-portal-main au.icr.io/job-portal-app/test
"docker push" requires exactly 1 argument.
See 'docker push --help'.

Usage: docker push [OPTIONS] NAME[:TAG]

Push an image or a repository to a registry

C:\Users\user>docker tag job-portal-main au.icr.io/job-portal-app/test

C:\Users\user>docker push au.icr.io/job-portal-app/test
Using default tag: latest
The push refers to repository [au.icr.io/job-portal-app/test]

Aboutus

Mission

SMARTBRIDGE is an edTech organization with a vision to bridge the gap between academia & industry. Our outcome-based experiential learning programs on emerging technologies (Internet of Things, Machine Learning, Data Science, Artificial Intelligence, Robotics) are building skilled entry-level engineers, for the corporate world...

Vission

Our main objective is to bridge the existing gaps between prevailing industry standards and what the academics offer to the graduates while passing out of university. SmartBridge offers suitable skill deployment and training to the young talent before on boarding their first job. Our skill development programs are designed considering the present expectations in the industry.

Objective

Well directed career guidance programs for educational institutions
Appropriate certification courses that suit the industry need
Train the trainers; expanded awareness about the current industry standards
Liaise with corporates to offer niche internships
Establish technology development centers in colleges
Specialised incubation centers in collaboration with corporates

Question 4:

4. Create a Kubernetes cluster in IBM cloud and deploy hello world image or job portal image and expose the same app to run in node port.

The screenshot shows the IBM Cloud Kubernetes Service dashboard for a cluster named 'mycluster-free'. The cluster is in a 'Normal' state and expires in 30 days. The dashboard includes a sidebar with navigation links: Overview, Worker nodes, Worker pools, and DevOps (marked as 'New'). The main content area displays a warning banner about the 30-day expiration. Below this, there are four status cards: Node status (1 of 1, Normal), Add-on status (0 of 0, Normal), Master status (Normal), and Ingress status (Unknown). A 'Details' section provides information about the cluster ID, version (1.23.13_1550), infrastructure (Classic), zones (Milan 01), creation time (27/10/2022, 7:37 pm), resource group (Default), and image security enforcement (Enable). A 'Node health' section is partially visible at the bottom.

The screenshot shows the 'Aboutus' page of the JobPortal website. The page has a header with a 'sheep-logo' and navigation links for LOGIN, REGISTER, and CONTACT US. The main content area is divided into three columns under the heading 'Aboutus': Mission, Vision, and Objective. The Mission column describes SMARTBRIDGE as an edTech organization. The Vision column states the main objective is to bridge the gap between industry standards and academia. The Objective column lists various career guidance programs. At the bottom, there are two sections: 'JobPortal' with placeholder text and 'Get in Touch' with contact information including an email address (jobportal@gmail.com) and a phone number (+91 8977787657).
